PRICE LIST

OF

TWIN FALLS NURSERY

JAMES A. WATERS
PROPRIETOR

Located 1 Mile North of town
on Blue Lakes Boulevard

The stock herein offered is of the best quality in all respects and well worthy the attention of all Orchardists and Fruit Growers.

We keep all our departments fully up to the times, adding every new variety of merit as soon as we are satisfied of its value for the Twin Falls tract.

Our collections are carefully examined every year, and such things as seem to have little or no value are discarded.

In this way we offer to our customers assortments which we can recommend with the greatest of confidence.

The extent and completeness of the collection of both the Fruit and Ornamental Departments of my nursery, their reputation for accuracy, which is scrupulously maintained, the long experience of the proprietor and his assistants in every detail of nursery work, are well worthy the consideration of purchasers. No pains will be spared to insure satisfaction to those who favor us with their orders.

Unknown correspondents must send cash with orders or satisfactory reference.

Personal inspection solicited. Send list for quotations.

When trees are packed for shipment for a distance the roots are cramped up and strained out of their natural position. When you buy trees of me you get them with all possible advantages of a good start—climat-
